**FEDERAL LABORATORY CONSORTIUM
FOR TECHNOLOGY TRANSFER**

FLC *advancing federal
research and technology*

The Federal Laboratory Consortium for Technology Transfer (FLC) and the National Technical Information Service (NTIS) continuously collaborate on the process of Federal Technology Transfer.

The FLC is the nationwide network of federal laboratories that provides the forum to develop strategies and opportunities for linking laboratory mission technologies and expertise with the marketplace. The FLC consists of more than 250 federal laboratories.

As an agency of the U.S. Department of Commerce, the NTIS mission is to provide for the acquisition, archiving and dissemination of technological, scientific, and engineering information. Much of this permanent repository of information is the result of research conducted by federal laboratories that are members of the FLC. The collaborative effort of the FLC and NTIS ensures the perpetual availability of this vital research to American businesses and industries.

Key to Database Fields Used

The following NTIS database fields are used in this short listing of recently acquired technical reports.

- **NTIS Order Number**
- **Title**
- **Source**
- **Report Year, Page Count**
- **Report Number/ISBN13** (if available)
- **Related Categories/Sub-categories** (where the document is also indexed)
- **Keywords**

RSS Feeds are available in your choice of NTIS Subject Category. For information use the RSS link on the NTIS Homepage and look for the Category RSS Feeds button.

Example showing the Structure of an NTRL Bibliographic Record

Accession Number	PB80-161573
Title	Cultural Resources Survey: Rachel Carson National Wildlife Refuge Headquarters Parcel.
Publication Date	1979
Media Count	15p
Personal Author	Spiess, A. E.
Abstract	The Rachel Carson National Wildlife Refuge is located in York and Cumberland Counties, Maine, and consists primarily of salt marshes managed for migratory waterfowl habitat with small wooded uplands. A tract of 30 acres slated for development of new support facilities was researched and field surveyed for historic and prehistoric archaeological sites. Results were negative. There are no significant archaeological sites on the tract in question that need be considered during future development.
Keywords	Site surveys, Archaeology, Investigations, Little River, Maine, Rachel Carson National Wildlife Refuge, York County(Maine), Cumberland County(Maine), Wildlife refuges
Source Agency	Office of Archeology and Historic Preservation PK Service
NTIS Subject Category	92D - Education, Law, & Humanities
Corporate Author	Maine Historic Preservation Commission, Augusta.; Heritage, Conservation and Recreation Service, Atlanta, GA. Interagency Archeological Services.

Subject Category Codes/Classification

NTIS classifies citations into 39 subject categories. Each of these subject categories is divided into subcategories. This method provides sorting categories for both hard and soft sciences. All subject categories consist of three character codes: two numerics and one alpha character. The numeric codes represent entire categories the alpha codes are used to designate subcategories within these broad categories. The number of NTIS subcategories posted to an information product average from three to five, although there are some reports with more.

The National Technical Reports Library (NTRL) enhances accessibility to the NTIS technical reports collection. It provides access to:

- Bibliographic records of more than 2,000,000 technical reports
- Downloadable full text of 700,000 of these reports in PDF format

Subscription rates are based on institutional FTE levels.

The NTRL operates on a system interface that allows users to do queries on the large NTIS bibliographic database. The intent is to broadly expand and improve access to over 2 million bibliographic records (pre-1960 to present) and 700k full-text documents in PDF format that are directly linked to that bibliographic database.

For more information, go to:

<http://www.ntis.gov/products/ntrl/>

NTIS e-Alerts

Every week, NTIS receives more than 1,000 publications, studies and valuable data from over 350 U.S. government agencies and international sources. This information is the result of billions of dollars of R&D and studies sponsored by the United States Government.

NTIS *eAlerts*, delivers summaries of these publications right to your desktop, bi-weekly, in your field of interest. For more information visit
